

Electrical Project Engineer

Function description

You will be based in Antwerp, Belgium but working in Belgium, the Netherlands and in some cases France. The Electrical Project Engineer is the central contact point in the organisation for all electrical design of the PV plants, and this as well in low voltage as for the DC-elements.

The Electrical Project Engineer will report to the Director Operations.

Tasks and responsibilities

- Detailed electrical design of the contracted projects in the field of low voltage and DC configuration
- Feasibility design and cost calculation of projects in the pre-sales phase
- Preparation of As Built documentation where needed
- Prepare tender documents in relation to electrical aspects, as supporting element towards our procurement service centre in Singapore
- Interact and cooperate closely with our engineering service centre in Lisbon
- Strive continuously for cost reduction of components and their arrangements
- Support the project managers with the correct deliverables for the project
- Follow-up electrical contracting works on-site
- Taking charge of the integration of new articles and goods.
- Support in the evaluation of the quotations related to electrical design
- You will be the single point of contact for the distribution network operators

Profile

- Engineering degree with minimal 5 years of experience in a similar role
- Fluent in Dutch, French and English as well verbally as in writing.
- Strong communication skills as well in writing as in spoken word
- Strong knowledge about design techniques
- Strong electrical background and knowledge of materials
- Ability to interact with and comprehend mechanical designs
- Very proficient in electrical codes and standards as well as electrical calculations
- Analytical profile

Offer

- A financial stable organisation in a dynamic environment
- A company with respect for the environment and sustainable business
- An attractive function with a wide range of tasks and an international environment that stimulates initiatives
- Competitive salary with extra benefits
